LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Montevideo 3d.

The new broom has begun to sweep already.

New Gefe Politico named at San Jose, but all the others remain for the present.

Mr Lanza named Director General of Telegraphs.

The public account books are to be closed up to 28th February and left open for public inspection.

No Cabinet named yet.

No general news whatever.

Montevideo 4th

Steamer Avon arrived from Southampton with 256 cases for Exhibition.

Insurrection in Dalmatia and Herzegovina continues, Montenegro helping it. Austria taking serious measures to put it down. Eight millions florins voted for war expenses. Kalnoky, Foreign Minister, declared that the movement is promoted by a foreign Government, but denied that he alluded to Russia.

Austria says she will occupy Servia and Montenegro.

General Ignatieff is new omnipotent in Russia and directs the whole policy of the empire.

Chascomus 4

Great attendance at the Fair to day and yesterday, and splendid prices going. Buyers and sellers alike radiant.

THE MILLERS.

Many subjects of much public importance escape the city papers, from the sheer impossibility of keeping up with everything, we know of no city, no country; where there is a more constant current of excitable press topics than here. Our social formation is so fresh yet, so polished our progress, in some lines so headstrong, that our very wants accumulate. A public writer in Buenos Ayres is destitute of brains if he ever falls short of subjects on which to write, and, in fact, his chief ability lies in culling from his overpiled table the right topic at the moment.

During the week, the city millers have held a meeting of their own, to adopt some measures to keep their mills going. It appears that, owing to the too rapid development of the mill industry in the colonies of Santa Fe and throughout the provinces, the wheat grown up the country, even with the most favorable harvest, is barely sufficient to keep all those up-country mills going, and the result is, as occurred in 1880, the provincial millers made more flour than the whole Republic could consume, and were obliged to export the flour to Brazil, Even to this hour there is a surplus stock of old flour at the mills in the colonies.

Wheat growing in the Province of Buenos Aires, although on the increase, has never at all approached the importance of Santa Fe; so long as the millers of Buenos Aires could buy their wheat in Rosario it mattered little to them what became of the chacras or "pan llevar" lands of this province. They freighted Bruce's steamers, and we have even seen Santa Fe wheat brought over the Campana line, and sold alongside the wool sheds in the Plaza Once; but the new mills put up in the colonies have stopped all this trade; the wheat grown in the colonies is ground in the colonies, and half the bread eaten to-day in Buenos Aires is from flour made up the country. Buenos Airean wheat farmers are not able to keep up with the consumption; the Buenos Aires Government has never started a single wheat colony in its province, if we except the Russians at Olavarria, who were pushed on the Government; no wonder, therefore, our flour mills in this city are at a dead stand still, and the millers meet to consider what is their next best step.

It is proposed to start a wheat colony on the Rio Negro; the land, climate, irrigation, freedom from locusts, all conspire to favor this charming locality. There is nothing in the Republic to surpass the Rio Negro, and they might grow enough of wheat down there to feed all the mills in the Republic.

Two representative Welshmen have just sailed for the south, and we have no doubt their report on the Rio Negro lands will do much to bring that favored but neglected district more before the public, both here and in Europe. The Buenos Ayrean millers, if they succeed in starting a wheat colony down there, need not sell off their mills at a ruinous sacrifice, since it is proven by the wheat from Chubut and Patagones that the grain grown in the south is far superior to anything in Santa Fe; we look forward with hope and pleasure to this new move and trust that the millers will carry out their programme in time for the new crop.

ELECTRIC LIGHT.

We have received the following startling communication about the electric light, which is cut from the *New York World*:—

Philadelphia, Dec. 29,

It looks very much now as though the electric light so recently introduced along Chestnut street would be condemned by City Councils and abolished. The approval given by the Councils a few weeks ago seems about to be withdrawn, because of several accidents which have occurred lately, and because of several admissions made to members of the Fire Board by Superintendent Law, of the Brush Light Company. Twenty-five buildings in various parts of the city were set on fire the other day by means of the electric wires from a store near Thirteenth and Chestnut streets, and several persons were slightly injured by shocks received. The Chief of the Fire Department has been ascertaining the risks which the firemen will run in handling the wires, and he professes to find that contact with the current in force would kill or seriously injure the men. There will be great opposition to the removal of the lights by the citizens, and therefore several councilmen have consulted Superintendent Law as to the expediency of running the wires underground. The Superintendent thinks there is no system by which an underground scheme ean be worked, owing to the fact that the wires become moist and after a time useless. The campany propose, however, to put two wires under Market street for experimental purposes.

The National Underground Electrical Company have been laying wires beneath Market street from the Delaware River to the public buildings.

ROSARIO.

(*From our own Correspondent*)

March 3rd

I did the *Independiente* of this town injustice the other day, so I will make up for it in this letter. The Editorial eye caught sight of the heading of one of your leaders, 'The Port of Rosario,' and I suppose it created some surprise to find a Buenos Aires paper, even a foreign one, writing on such a subject. As the Editor of the paper is the Rector of the National College here, he sent for the Greek Professor, and between the two they made out enough to convince them that you had actually written an article in favour of the Rosario Port works. They even went so far as to pray some complaisant and competent subscriber to translate it for the paper, and taking it for granted that any editorial of the *Standard* must be a masterly piece of diction, they land you to the skies. So you can pat the *Independiente* on the head now and then.

I see by the papers that the Paraguayans are about to export manai and oil of mani, to the Argentine Republic. The production of the nut is increasing in this province rapidly, and as oil mills are scarce, it is shipped already in considerable quantities to Marseilles from the port of Santa Fe. The mills of the Messrs Flajollet are the only ones in this province, but if I am not mistaken there is one if not more in Buenos Aires. The principal regions of production are the colonies about the 'Malabrigo' and the 'Rey,' and if I am well informed the colony of Alexandra produces a considerable quantity. We all know that the oil of mani is largely mixed with the olive oils we receive from France and Italy, and it is much superior to cotton seed oil, which is also largely used to adulterate olive oil. I suppose almost the only genuine olive oil is what we get from Spain, and this manufactured so coarsely that only a Gallego or a Catalan can stomach it.

The exportation of mani from Paraguay to this country would hardly pay, I think, unless the Government were to allow a drawback of the duties, on our shippers sending it to Europe. As for the oil manufactured in Paraguay, it is not to be supposed it can compete in quality with that made here. The Fiajollets use the most perfect French machinery, and as far as appearance goes, their oil is equal to the finest olive, but of course it wants the flavour we are accustomed to.

The result of the deliberations of our Municipality on the Rosario Water Works is that we are not to have any. As three 'propuestos' were sent in and each of the parties had his circle of friends, the poor Municipales were so badgered that they kicked all three out of court. So the Water Works and Port Works are in the same waste paper basket, The proposal of the American company was an advantageous one for the town, but it has met with the same fate as the others. Our hopes of pure water to mix with our brandy have nearly vanished. However, we still have some hopes that the Municipality, after refusing the three proposals, will call for public bids, when we may probably see the three discomfited candidates in the field again.

Talking of Municipalities, the people of Cordova are vainly striving to get one organised; but every time a day for the election of members is fixed, not an elector attends the polls. They are very foolish not to request the Governor to nominate the whole batch.

What are you federalised Porteños about with your brand-new Exhibition? Is it ever to be inaugurated, or are we to see Mr. Balter with his hammer, on the top of Bickerl's Tun, selling off the contents of the cases before they are even opened. Such a mess I have never seen. There seems to have been no directing head from the very beginning: no prevision or experience, nothing but a blind rush to a certain object with no calculation as to time, opportunity, or means. The Exhibition, which should be of paramount interest to every Argentine, is looked at now with indifference, when it is not ridiculed. It would require to be very magnificent now to create any sympathy, and we all know, or rather feel, that it will be very little better than the one in Cordoba in 1870. The provinces certainly displayed then more interest than now, and made a respectable show. There were many beautiful foreign manufactures that will not be seen in the present Exhibition, and there were fewer specimens of the hair and pencil labours of ambitious boys and girls. It is fortunate, however, that the capital by itself can furnish a brilliant concourse of visitors, and the inauguration, no doubt, will be stunning, but as a National Exhibition I very much fear it will be 'nought, nought, nought,' unless General Roca's portrait, worked in hair, shall excite unbounded and never-tiring admiration.

The new Minister of Education has nominated the Professorate of the National College in Rosario, and the list is rather formidable. Eighteen professors, at an annual cost of upwards of twenty-two thousand two hundred dollars a year.

We would humbly suggest to Dr. Wilde, that now that he has appointed the masters he should find the scholars, for really our spacious college is woefully deficient in the latter article, which is not of a first-rate quality either, and puts me in mind of the North American saying, 'giving a ten thousand dollar education to a five dollar boy which is found not to pay in the long run.

The fact is, our National College is by no means popular and is very sparsely attended. I understand that there are not over eighty boys matriculated. If they all attend

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

this would make four boys and a fraction for each professor.

One reason for the non-attendance is the great distance the college stands from the centre of the town. There is a tramway, but this is costly for the 'five dollar boy.' The Municipal and private schools in the centre are well attended, but I fear the National is very costly without being very useful.

I see with pleasure that our talented medical practitioner and surgeon, Dr. Freud, has been appointed Professor of Physics, and I can only hope he may secure a class worthy of his great attainments.

We are having very heavy rains.

W. P.

EDITOR'S TABLE

The Royal Mail Steamer Trent sails this afternoon. Among her passengers for old England is Mr Thomas Drysdale. A special train will leave the Central Station at 2 o'clock, taking Mr Drysdale and his friends to the Boca, where a special steamer will be in readiness to start with them for the Trent at 2-15 p.m. We wish Mr Drysdale and his fellow passengers a safe and pleasant voyage.

The Royal Mail steamer Avon arrived at Montevideo yesterday from Southampton. Political affairs in Europe look very glum in Dalmatia and Herzegovina, and Count Kalnoky has openly declared that a foreign Government is fanning the flame: he says it is not Russia. Can it be Italy?

There was most painful news yesterday from the United States where the Electric Light has been found, in addition to its other defects, to be 100 times more dangerous than gas, and in Philadelphia 25 houses have been burned down owing to being set on fire by the electric current passing through the wires. Being true friends of science, we must regret this collapse of the Electric Light. In Dublin, and at Billingsgate Market in London, the Light has also been abolished as dangerous. It had also some peculiar effect on the fish. It might perhaps, be as well not to venture on the Light in the Exhibition.

People got tired of Stump and his affairs yesterday. Dr. Christiani has taken a Christian view of the case and refuses to prosecute; M Marechale has followed suit, and Stump says he owes nothing to Carreaux. The latest about this queer business is that everybody connected with it has gone to bed, and we wish them a sound sleep: they have certainly been 'bled' sufficiently to ensure it.

The Havas telegram about the Queen's return from Osborne to Windsor, in consequence of the conflict between the two Houses of Parliament, whets the appetite of resident Britishers for more news of the fight. As the Conservatives have a large majority in Buenos Aires, the Lords are the favourites; but it must be borne in mind that in all previous serious tussles between the Upper and Lower Houses, their Lordships have gone to the wall, and it is quite possible that they may go bang through it into outer darkness and gnashing of teeth this time.

The Governor's Message to the Legislature on the new Capital Question contains 1,250 pages! This will be a treat. We undertake beforehand not to translate it, at least the whole of it.

The laying of the foundation stone of the new Breeding Farm at Santa Catalina took place on Friday with great eclat. Governor Roach, his two Ministers, Dean Dillon, Dr. Zorilla, President Roca's Secretary, and a host of Deputies, Senators and other gentlemen started from Plaza Constitucion in an express train at 9.25 and reached Lomas at 10.7. The Justice of Peace, with a large party, and the inevitable 'banda de musica' were at the station to receive the distinguished party, who jumped into 20 carriages and drove off to the farm, in front of which the pupils and farm servants were drawn up, in their best attire. After a little preliminary conversation the ceremony began by Governor Roach making a graceful speech on agricultural pursuits, holding the cord that sustained the stone, which was then blessed by Dean Dillon, who followed with a most impressive and eloquent discourse. The stone was then laid in its place with the usual formalities and the visitors sat down to breakfast under the trees, and such a breakfast! supplied by Canale; not a drop of 'fuchine' on the table, and such viands! There were half a dozen more excellent speeches with the champagne. After breakfast the party visited Jacobs' 'chacra' and got back to town about half past 4 o'clock.

Another shocking suicide on Friday—M. Lepine, a French tailor in Calle Florida, who blew his brains out owing to his business affairs going wrong.

Members of camp Consejos Escolares had better be careful who they entrust their cash to, as the Superior Council has decided that they are individually responsible for all public money paid to them and which their employees may happen to steal, as occurred in Salto the other day. Catch us on a School Board. Not if we know it.

Juvenile crime is increasing awfully in Republican France: over 30 murders were committed in that country last year by mere boys.

On Carnival Monday a desperate fight occurred on the extension works of the Andine Railway between 80 peons and 20 policemen, one of the latter being left dead on the field, Carnival libations produced the conflict.

London contains fourteen strictly terminal railway stations, from which no fewer than 2,202 trains depart daily, and nearly 1,600 of these leave between the hours of 10 a. m. and 10 p. m. The largest number of departures from a single terminus is 320, after which come two stations with 312 and 295 respectively. These figures are exclusive of the immense system supplying the city with local transit.

Brokers, bankers and business men generally seem to make heavier lunches during Lent than they did before it began. Mr Juan Peire's new lunch rooms, corner Piedad and San Martin, are crowded every day till long after lunch hour, and the consumption of sandwiches of every kind, from plebeian corned-beef to lordly turkey, lobster etc. is something truly prodigious. The 'forte' of the place, however, is its 'relishes'—delicious compounds that make you hungry and thirsty at the same time, so that you never know when to stop, whether at the last 'choppe' or at the last sandwich. The secret of making these relishes is so valuable that Mr P would not sell it for all the money lost in Union Generale, Suez Canal and 'Alpines' put together.

Young women have taken a remarkable place in the late examinations of the London University. The class of mathematical honours had but three members, one of them a girl who took the palm; a girl also came out ahead for English honors, and two of the four for German honours were girls, who again distanced their male rivals; one of the three again, placed at the head for pharmaceutical chemistry, was a girl, and Miss Prideaux was first in the honours list for anatomy, coming from the London School of Medicine for women, and beating both of her rivals from Guy's Hospital.

Coal is said to have been discovered last week somewhere in the province of San Luis. Where, and oh! where?

San Nicolas is in a ferment about a 12,000 pats affair in which several most respectable persons were let in by a barrister who mistook their names for his own and wrote them on sundry pieces of stamped paper.

Should any of our readers like to have a look at that very useful publication, *The Machinery Market*, we shall be most happy to oblige them.

The difference between the Municipality and the Police in reference to the hackney 'cocheros' has been referred to the Minister of the Interior by the Lord Mayor, who begs H.E. to order the Police to carry out the orders of the Municipality in the matter.

We suppose it is quite unnecessary to remind our fashionable readers that the Colon Theatre reopens to-night.

Father Alberdi preaches to-day at the Cathedral, instead of Father Jordan, as announced yesterday.

There will be some horse-racing to-day at Palermo. Three events on the card.

The Catalogue of the Exhibition (1200 pages) will be ready next week.

Amongst the curiosities at the Exhibition will be a coat made out of a single piece of cloth.

We regret to hear of plague being amongst the cattle in Mendoza. The wines are all right however.

The Viale Monument will be taken up by the Municipality to-morrow at 1 o'clock. It is about time to settle this business.

The Exhibition Committee have got wind of the intention of some 'honourable' exhibitors to put forward imported articles as made here, and they give notice that they will pitch such articles out of the window and post the names of the delinquents all over the building. Quite right.

Yesterday an address of congratulation on his return to office, signed by 187 commercial houses, was presented to Dr. Plaza, Minister of Foreign Affairs, by Messrs F. Ibarra and O. Arauz. Mr. Ibarra was spokesman, and the Minister returned a feeling reply to his eloquent remarks in handing him the flattering address. There can be no doubt as to Dr. Plaza's popularity: he has always been popular here and is equally in London, where they call him the South American Gladstone, in compliment to his great financial abilities.

An attempt to assassinate Queen Victoria has been made yesterday at Windsor.

The assassin fired a pistol but did not wound Her Majesty.

Immediately taken to prison, and verbally interrogated, it was clearly proved that the attempt had no political motive whatever.

According to a medical examination it appears that the author of the attempt is mentally insane.

March 4th

Patacons	25,—
Cedulas A	100½
Cedulas E	87½
National Bank Shares	126½

Although no business in gold was transacted at the ring, several private operations were effected to-day at 25.01 and 25.02. When gold is needed, it can only be had at a few cents above par, but operations of this kind are so few and so limited that one may consider the gold business at a stand-still. Not so with the Series E Cedulas; the brokers have taken the stock in hand with a will and operations are very brisk. Those who bought at 82½ are now selling out fast for the end of the month, realising good profits. The market this morning, in consequence, was not as steady as yesterday and the firm opening prices could not be maintained, but the stock is so buoyant and the speculation so brisk that we may look forward to another rise. The scrip is coming strong on the market and the Bank is issuing the Cedulas daily on mortgages. Series A is now above par and sells at 100½; we may expect now a rapid amortization of the 8 o/o paying Cedulas, as the market is taking so quietly to Series E, and the mortgages increase.

It is a long time since the National Bank Share was at so low an ebb as at present. There is a thorough paralyzation in the market. The position of both bulls and bears is well known to all; the former hold the market and can do what they wish in view of the over-sold numbers of shares for the end of the month. All anticipate the corner of the bears, but many question whether it is advisable to break the back of the market by exacting too much. The paucity of operations shows how the bears stand back, and many of them have plunged into Series E, awaiting a change in the market next week. Now that the National Bank Share market is left to itself the situation looks drooping and ops ations are nearly nil; nevertheless, any man who stops forward to buy, sees the option and the stock rises. It remains to be seen what rates they can afford to pay who have sold at 'deubierto'. At all events, speculation for the present is at a standstill and the attention of the brokers is centred on the liquidation.

Our electric light amateurs will be sorry to read the news in another column from Philadelphia. It is difficult to understand the complaints of shocks received by touching the wires, since one might be led to suppose that bearing currents of such intensity they would be insulated. The serious point after all is the danger of conflagration. Should this be true, we much fear that the prospects of electric lighting are put out.

In another column will be seen the notice of the Transandine Telegraph Company, calling on shareholders to collect their dividend of $f 27.74 gold per share. The prosperity of the company is reflected in the dividend. The dividend is payable from the 11th inst.

In reference to Gas Shares our quotation of Argentine Gas Shares in yesterday's issue was a mistaken. The printer set up 81 per cent, instead of 92 per cent, the present value of this rising stock in the market. The quotations of the three gas companies are as follows—

Primitive Gas 1850
Argentine Gas 9½ per cent
Buenos Aires Gas 81 do

The fine R.M.S. Avon has arrived in Montevideo with 280 cases of exhibits for the Exhibition.

The sales at the ring were as follows:—

There was a large movement in exchange to-day, and the two English Banks swept the market clean of francs; one broker, who was very busy all the morning running about town, took 400,000 francs and others did nearly as much; this great movement in exchange is attributed to the probable lowering of the Provincial Bank rate next week to 5.20, the bills passed to-day were done at 5.24 Paris, and 5.25 on Antwerp, 43⅜ London and 4.24 Reichsmark.

Land brokers report estancia lands tremendously flat, and much more offering than can be sold, even good inside lands suffer from depression and cannot be realized, whilst letters received from London state they are offering Argentine lands for sale there, but only River Plate people enquire about them; the New Zealand and Australian interest in London is dead against everything River Plate.

Mr Fritz Prange of the Banda Oriental was welcomed on Change, he leaves shortly for Europe; Mr V. Ricketts is now the manager of the Prange Estancia Company.

The payments on 'Change to-day were large, and there seems to have been much done during the week in produce and exchange. All the tables crowded, and at all the banks a great movement. The National Bank will soon have to open a larger treasury office, as the business going on, to judge by the number of people in the Bank, is largely on the increase; paper money was in demand all day, and gold that could not be sold at 1 cent prem., was taken to the Provincial Bank and changed for paper at par. All the Banks discount now in gold in preference to paper.

In the R.M.S. Avon comes the great gasometer for the Exhibition. Special lighters will have to be engaged for the cases of exhibits, as they are so large and heavy.

The charter party for the German barque Pebor Suppicich has been cancelled, because of the vessel having been found leaky; and the underwriters agents consequently refusing to approve of the ship, as being unfit to load cargo for Europe before having docked and undergone repairs.

The packet takes a full cargo, 20 1. class passengers and 56 2 and 3. class.

Owing to the very changeable weather today people were enquiring on 'Change if the packet would sail to-morrow, we must add to the list of those leaving by this steamer, Messrs A Bell, Woodhouse, and McVicar. The mail leaves without fail to-morrow, Sunday.

Mr Wallace, who has arrived up from the South, was welcomed; he says the camps are splendid down there, and everything looks well.

The Chief of the public lands and colonies department has just reported favorably on a concession given by the Corrientes Government for lands in Misiones. A most important matter, as many concessions up there hang upon this matter.

Mr Jorge, formerly broker and now a swell Entre Riano estanciero, was welcomed on 'Change; he says cows and sheep up there are doing famously.

Yesterday a farewell "carne con cuero" banquet was given in Flores to Mr Thomas Drysdale who leaves to-morrow [Sunday] from the Central Station at 2 p.m. when a special train will be in waiting to conduct friends to the Boca where a special steamer will await the party at the Drysdale mole, Mr and Mrs John Hughes and Miss Hughes also leave for Europe by this steamer.

Owing to the bad weather the Maskelyne will only leave on Monday. Passengers leave the mole at 2½ p.m. She takes a full cargo and many passengers.

The fine str. Nürnberg leaves to-morrow morning with the following cargo:—

2,560 bales wool
5,000 salted hides

From Montevideo—

400 bales

Eight thousand arrobas of wool arrived in the Once this morning. There was more animation than usual in the market, and wools in deposit were also sold.

At afterhours nothing done in gold or Nat. Bank Shares. The speculation in Series E continues, but the market is weak, operations were effected at 86½.

The Sales at afterhours were—

Mr Moore of Lobos informs us that agriculture out there is growing fast, and the plough is cutting up new land; this is good news, as we hear the city millers have just held a meeting to consider their business prospects, there not being enough of wheat grown in this Province for its mills, and all the Santa Fe wheat is now bought up at the colonies and kept up there by the millers. We want in this Province more colonies, more wheat, and more ploughing; they are trying to sell one of the largest flour mills in town for the last year, and although the valuation is below cost it can't be sold.

Several estancieros in the city have received yesterday and to-day small notes in reference to the new tax for drainage and levelling of the province. Estancieros of the North camp no doubt will escape the tax, as they have nothing whatever to do with the drainage or the improvements carried out in the South. At the same time most estancieros are "kicking" against the new marking law, and there may be some probabili ies of seeing a written protest from the wealthy body one of these days.

With reference to the robbery in the office of the Messageries in Rio, we are requested to state that the culprit was never Lord Mayor of Marseilles or Deputy of the French Chambers. He was simply a clerk, recommended to the agent of the Company at Rio.

It was said to-day that the difficulty between the two committees of the exhibition has been finally settled. The Government Committee will hand over all the necessary funds to the Club Industrial.

The sales of public lands in this Province during the year 1881, amount to the very respectable sum of 30 millions currency, and could we but get at the sales made by the auctioneers and land brokers during the same time we should astonish our readers with the figures; the truth is, there is more doing in land than in anything else in the country. In former years the names of owners of land would make but a short list, but to-day every one in the country is head and ears into land. People hold lands they never saw and probably never will see; what we want now is settlers on these new lands. Take for instance the Provincial Government lands sold during the year, 30 millions worth of land; the sales of these lands really amount to nil as far as the country is concerned, so long as the buyers do not stock them; were all these lands "poblado" during the year, then indeed we might boast of the grand march of our estancieros' progress; but too many buy the Government lands, as they buy National Bank shares, not as a investment, but to sell again of course the business is legitimate, but it is after all artificial, and we stick to the old rule, the Government ought to sell to those who will drive their cows and sheep on to the land, sink a well, and put up a house; these men should have the preference.

The latest on Change about the Stump business is that Madame Calreaux and Marechale are in bed, Stump sent to the Hotel La Paix also to bed; what with excitement, fasting and privations in his secluded lodgings, his system has given way. We suppose that Dr. Christiani will be the doctor called in to attend the three patients. Since the fainting scene in the hall of the hotel, a scene never, we are told, to be forgotten, Madame has been confined to bed; doubtless the loss of $16,000 is enough to give any one either a headache or the gout, but the whole business is far too much talked of on Change and we suppose exaggerated.

The following are figures referring to some expenses of the Exhibition:—

Argentine Gas Co.....	75,000 m/c.
Marios Durand & Co...	100,000
Do do.	200,000
Schwartz & Co.	31,800

The total expenses due at present is close on 600,000 m/c.

The tickets for the Exhibition will be cheap and within the reach of all, as follows:—

Entrance.....	10 m/c
Concerts	20
Inauguration and cloture..	30
Permanent ticket for exhibitors	300
Do for the public	500

Owners of permanent tickets must present their photographs to be affixed to same; this means business for the photographers.

The *Nacion* published a long and interesting communication this morning on the electric light; we recommend same to those whom it may interest. It is an answer to the able article of the *Courrier*, our French colleague, published yesterday.

The Club Industrial will soon issue a notice warning exhibitors from palming off foreign exhibits as native ones. Such exhibits will be banished from the Show, and the names of the exhibitors published.

Dr Don David Zavalia has been appointed Procurador Fiscal of the Federal Judge, by decree of the National Government, The nomination is a good one.

The Campana Railway Co., it is stated, contemplates reducing its passenger and freight rates. The manager consults the interests of the public, and deserves its applause. The National Government will no doubt approve of the proposal.

Mr D E Carmody has been appointed provisional Inspector of Gas by the Municipality. We hope the Municipality will finally name him to the post.

All the Oficinas de Cambios men of the city have sent in petitions to the Municipality, requesting the agency of the new lottery. In all probabilities they will all be appointed agents. The lottery will give a living to hundreds of poor fellows in town who now go about selling tickets from San Luis, Sta. Fe and Montevideo.

The following is the balance-sheet of the Continental Exhibition; the figures are interesting, as they shew how very little money is invested in so large a concern. We may roughly calculate all the expenses of the Exhibition on the closing day at 5,000,000 m/c, the following is the balance-sheet:—

Dr.

The following sales of real estate were registered yesterday in the National escribania:—

Calle Reconquista No. 195 for 42,000 pats.

Tres Arroyos 1½ square league in 2 fractions for 3,837 pats.

With reference to the French crisis, we take the following from the *Economiste Francais*:—

"The delirium which has seized many minds is out of proportion with the evil. It is stated in one journal that France has just lost £200,000,000, the equivalent of her war indemnity; another gravely informs us that there is not a single family in our country which is not either in anxiety or in grief. This style of hyberbole differs from the truth as much as an elephant differs from a mouse. If they said that of every 10,000 French families one was in grief and ten were in distress, it would come far nearer the truth. Certainly, it is unpleasant to the thrifty man of small means to see on opening his newspaper that the railway bonds he had bought were worth only £15, instead of £15 12s. or £15 15s., which they cost a month since. The little bourgeois makes a wry face when he perceives that his share in the Lyons line is quoted only at £34, instead of £72½, which was its recent figure; but at this point he is a long way off from anxiety and grief. Those even of capitalists who have calm minds promptly recovered their serenity on the thought that their share of the Lyons was worth but £52 last year, therefore it would retain a higher value of 25 per cent., and besides all that, the crisis would not diminish the dividend by a centime. I would lay a wager that amongst all those people who have been represented as being either in distress or in tears there would be many, and those would be the most sensible, who would still contrive to, and who find that they possess an unexpected opportunity for employing to advantage a portion of their Jany. dividends."

The French, under their system of Government bounties, are making extraordinary efforts to obtain a respectable position as shipbuilders. With this view, the works for the enlargement of the port of Havre are to be pushed vigorously forward. This has become a necessity, as there is no dock there fit to receive the new class of transatlantic steamers that are said to be indispensable to French trade. There are two companies that are making special efforts to obtain a share of the ocean carrying trade. One of these, the "Compagnie Commerciale des Transports a Vapeur", will have a fleet of seven new steamships, the first of which will be launched on the 21st of the present month. The other company, known as the "Chargeurs Reunis", will have its fleet ready for the beginning of 1883. In more than one important quarter, therefore, it is clear that the current year is to witness a very considerable addition to European-built ocean steam tonnage; an addition which would seem to be demanded by the constantly expanding requirements of the world's commerce. There is certainly no proof as yet that the business has been overdone.

They are superb.
Basis of sale $100,000m/c per league
Payable at long dates
Mortgage in favor of Mortgage Bank
On Wednesday, March 8th, at 3 p.m., at our mart, San Martin 61, we shall auction the above splendid camp by order and for account of its proprietors, who are about to liquidate their partnership. It comprises 2½ leagues of land, with permanent water in a lake on the borders of the land, half of which belongs to Sr. Madero.
The richness of the pastures need no comments. Persons in reach of something superior should pay it, avisit. On the adjoining estate of Sr Eduardo Madero; there are 15,000 horned cattle and sheep, &c, and the same can be said by Messrs. Perez, Rondean, Gazcon, Martin, Moore, Shult.
We remind interested parties of the last sale of Public Lands, lying 18 to 20 leagues farther out, which fetched $270,000 m/c per league. This land appears in the plan under the names of Castilla and Massot, and adjoining Messrs Anacleto Perez, Gregorio Loubet, Eduardo Madero, Francisco Rodeaun, and Señora Barbarita Alvarez.
Terms of Payment
DONT FORGET—The buyer may also take out the debt owing to the Mortgage Bank $fts. 8,000, of serie E. This would make the business easy, as the Bank could be paid off very gradually.

We will sell to the highest bidder over and above the stipulated basis, for cash, 8¾ league of splendid camp, in the department of San Justo, (Province of Cordoba). Advices we have received about the above camp are most flattering—so let those who wish to secure good land cheap, look alive.
The shape of the lot, its rich pastures, and the liberal conditions on which it is offered for sale (in one or more lots), place it within reach of agriculturists, who require small lots of excellent land.
The low valuation put on this land compared with the prices obtained by the Government, 3,000 pats, is the best recommendation we can offer.

En nuestra casa Alsina 78
De tantos campos que se han ofrecido y se ofrecen todos los dias en venta, pocos pueden ponerse en parangon con este lote y especialmente con los que acaban de venderse en la Seccion 10 a razon de 101 ps. la hectarea, o sean 271,000 ps legua cuadrada.
El campo que ofrecemos en venta esta mensurado y amojonado por el Sr D Angel Silva, y sus pastos son abundantes y riquisimos, componiendose en gran parte de gramilla, trebol, alfilerillo, cebadilla, cola de zorra, etc. garantiendo que no hay medanos en toda la fraccion.
Esta a igual distancia de Buenos Aires que los campos del Venado Tuerto que se venden hoy de 300 a 400,000 ps. legua.
Pocas veces se venden campos en iguales condiciones, y se vende unicamente por ausentarse uno de los socios para Europe, maxime que hay quien lo arriende hoy en 12,000 pesos (doce mil) la legua.
Para demostrar lo infimo de la base que se ha fijado para la venta, queremos recordar algunas ventas, efectuadas en estos ultimos tiempos, algunas de ellas en estos dias.
Al señor Cadmus en la Seccion XVII por 130,000 ps legua, comprada para una compañia belga que esta ya mandando los materiales para alambrar el campo.
Las 19 leguas vendidas por el Dr. D. Marcelino Ugarte al nuevo Banco Ingles a razon de 160,000 ps al contado la legua, y se poblaran a no dudarlo en poco tiempo.
Esta fraccion que anchada queda a muy poca distancio de nuestro lote.
Los campos que acaban de venderse en la seccion 10 y cuyo termino medio da mas de 245,000 ps por legua, campos infinitamente inferiores, y para que no se crea que es charla nuestra los vendedores dan al comprador, por medio de un documento, un plazo de seis meses para que puedan cerciorarse de la verdad de lo que decimos y de que si no son mejores estas tres leguas que cualquier fraccion igual de las 85 leguas de esa seccion 10, se anulara la venta y se devolvera el dinero pagado.
Muchisimos son los pobladores que hay por aquellos parages, cerca de alli la fraccion marcada en el Plano con Pirondo y Escalante esta poblada por dos vascos, a quienes se lo vendieron aquellos.
Sabido es que Lincoln es el partido que se ha poblado mas rapidamente, y lo prueban los grandes establecimientos de los señores Duggan, Ostendorp, Samsen, Ricketts, Sanford, Brown, Carabassa, Lopez, Martinez de Hoz y muchos otros vecinos pobladores, no especuladores, y que no venderian sus campos por ningun precio.
La seccion 17 que hace tan poco que fue vendida por el Gobierno de la Provincia, esta llena de nuevas estancias como la de los Sres. Romero, Allan, Wilson, Cabral y otros.
En cuanto a pronta comunicacion con los grandes centros, tenemos varias lineas de ferro-carriles que no son proyectos, sino que estan ya, puede decirse, en via de construccion, y antes de dos años tendremos el ferro-carril Trasandino, que pasara cerca de este campo, y el otro que ira a Tranquelauquen.
Pocos son los campos que le quedan para vender al Gobierno de la Provincia, y pueden estar seguros los compradores que todos ellos se venderan en las mismas condiciones de la seccion 10 y del campo vendido el 7 del corriente en el partido Nueve de Julio, cuya base era de $70,000 legua y fue vendido en 94600 pesos legua al Sr Unzue.
Queremos hacer presente tambien que la gran area vendida por el Sr Don Jose G Lezama al Sr Don Eduardo Casey, queda diez leguas mas afuera que este ofrecido en venta.
Con todos estos datos y las garantias de los vendedores respecto a la bondad del campo, este vale a no dudarlo $120 la hectarea !!! y con los 8 años de plazo sin interes vale 360 a 400,000 pesos la legua.
Los compradores firmaran pagares hipotecarios por los ocho plazos, entregando la octava parte al contado.
Prevenimos a los interesados que desde hoy tendremos a su disposicion un plano indicando la posicion exacta del campo, para que puedan mandar revisarlo con tiempo.

Remataremos a la mas alta postura y dinero de contado por orden terminante de su propietario:
La finca que arriba se indica, construida en terreno de 14½ vs de frente al Norte por 70 vs de fondo al Sud.
La casa esta ocupada por una fonda y zapateria y se compone de 15 habitaciones de material y otras de madera, cocina y demas oficinas, un gran fondo ocupado por galpones.
Tiene un contrato que vence al fin del año, produciendo en su actual estado $2500 mensuales.
Debemos llamar la atencion de las personas que buscan terrenos y locales centrales, en calles tan comerciales y de tanto movimiento como es la calle Piedad, una de las arterias principales que ponen la parte Oeste de la Capital en comunicacion con el centro de ella, y estamos seguros que no podran menos que decir, que es dificil encontrar un local mas lindo un terreno mas apropiado por sus dimensiones para la construccion de una buena casa de familia.
En cuanto a la base se ha fijado de $350,000 para la venta, ella no puede ser mas modica, pues da un precio de 350 m/c por vara cuadrada cuando es publico y notorio que allí se han efectuado recien ventas a 500 ps vara cuadrada

El Lunes 6 de Marzo
A las 3 de la tarde
Remataremos a la mas alta postura, pasando la base arriba fijada y dinero de contado, por orden terminante de su dueño.
El campo arriba mencionado compuesto de dos leguas cuadradas mas o menos, ubicado en el Partido de Dolores, distante 7 leguas de la ciudad del mismo nombre, lindando con los valiosos Montes del Tordillo, Baldomero Diaz, Santiago Bello, Juan Lopez, escribano, y Simon Palomeque; esta marcado en el Registro Grafico de la Provincia, con el nombre de Juan A Diaz.
Es campo de superior calidad para ovejas, por las buenas cañadas que tiene, asi que en verano nunca faltan abundantes pastos.
El campo para mayor facilidad de los interesados, se ha dividido en 4 fracciones de media legua mas o menos; pero podria venderse en uno o dos lotes de una legua cada uno o sera entregado amojonado en las dos primeras casas, pues la mensura hace muy poco que fue hecho.
En cuanto a la base que son $350,000, nada tenemos que decir: este campo a las puertas de la capital vale el doble y una vez practicada la nivelacion de la parte Sud de la Provincia, valdra 50 p$ mas.
Esta propiedad reconoce una hipoteca a favor del Banco Hipotecario por valor de $f.18,000 de los cuales hay amortizados $f.2,000 y con los cuales podia seguir el comprador si le conviene.
El actual propietario vende este campo por no poder atender dos establecimientos, queriendo dedicarle todo su atencion a otro de mas afluera.
Las personas que quieran ver el campo pueden dirigirse al Sr Victor Dardegnac (Hotel del Sud en Dolores) o a Don Angel Escudero en el puesto de B Sosa, en el campo de Baldomero Diaz, lindando con este.

La yegua num 30 tiene un potrillo y todas ellas con excepcion de la num 98 estan servidas por el padrillo puro Presidente.
PADRILLOS
Num 5 zebruno hijo de Presidente y yegua mestiza, cacio Octubre 1879.
Num 94 zebruno hijo de Presidente y yegua criolla, nacio Noviembre 1879.
Num 95 gateado hijo de Municipal, nacio Noviembre 1879.
'Bayard' y 'Municipal' de sangre puro fueron introducidos al pais por la compañia, comprados en el castillo 'Mille Secousse' cerca de Burdeos, *Presidente* tambien puro nacio en el establecimiento 'Matanzas' arriba mencionado.
Cremos inutil entrar en mayores detalles sobre la cria Percheron pues es una de las razas mas convenientes para la cruza con yeguas del pais, pues son animales fuertes, elegantes, fogosos y al mismo tiempo de una docilidad que no se encuentra en ninguno otra.
Tenemos una prueba de ellos en las varias yuntas que se ven en las calles de la ciudad procedentes de la cria del Sr. Cambaceres, unico criador de la raza que ha espedido hasta ahora sus productos al publico.
La Compañia del Tramway hasta la fecha habia unicamente espuestos sus crias en varias esposiciones, obteniendo siempre premios, pero sin ofrecerlas en venta; hoy que lo hace, tienen los criadores una brillante ocasion para hacerse de animales de primer orden.
Los caballos y yeguas pueden verse en las caballerizas de la compañia en las 5 Esquinas y dos dias antes del remate en nuestra casa Alsina 78.

STATE OF IRELAND.

(From the Daily News Correspondent)

The present condition of Ireland presents some features which are unique in its history. The Land League organization, friends and foes alike agree, was the most extensive and the most perfect popular organization that had ever existed in the country. It obtained but a very slight hold in Ulster, and it was never able there to assume that form of terrorism and intimidation which in the other three provinces rendered freedom of action on the part of dissentients almost impossible. In these three other provinces, however, it was dictator--every where, even in towns and cities, Dublin excepted. It is no misrepresentation to say that Dublin rejected the Land League. The branches established throughout the city had as their members the very lowest class of citizens—the men who walk in procession at the sham funerals of 'Manchester Martyrs,' men who are always ready to take up any cry that they suppose to be hostile to England, and who understand no more of the real bearings of the Irish land question than do the Zulus in South Africa. They knew this, however, that Mr Parnell was never weary of repeating that there was 'something behind the land question,' and that but for this 'something' he would not have 'taken off his coat' to fight the battle of the tenant farmer. Hostility to England was the real meaning of the organization—that is of the local portion of it—in Dublin. At the same time there is no reasoa to suppose that Dublin was the real headquarters of any organization for any very definite disloyal object. The headquarters of such an organization, if it existed, were certainly not in Dublin. And it is equally certain that in many places in the south and west, advantage was taken of the Land League movement, and the Land League organization, to organize for objects of a more definitely disloyal character. These secret organizations, substantially ribbon organizations, are still in full operation. They have only become more active and more distinct since the suppression of the Land League. The suppression of the Land League caused the withdrawal of the more respectable class of farmers, and of country shopkeepers. These indeed were generally glad of the opportunity thus afforded to them. To the more extreme party, however, their conduct has given offence; and influential merchants in provincial towns, who four months ago were highly 'popular,' have since lost cast with the populace—because they refused to declare publicly their continued adherence to the Land League after it had been declared illegal; and, in fact, because they declined to 'qualify for Kilmainham.' But the more limited and more secret organizations remain; and there is no district more infested with them than the great south-western district which the counties of Limerick and Clare cover. These organizations have their captains and their companies in every district. But where there are secret societies there will there be informers also; and at this moment there is no lack of information. If one man comes and tells a story to the Government officials there may be some doubt about its truth; but there is never collusion amongst informers, and therefore if two or three or four men come and tell a story precisely the same in its character and details it it impossible to disbelieve it. This is what is happening just now, and has been happening for some time. The recent extensive robberies of dynamite point to a danger which it will be difficult to cope with, a danger which no extent of military force could probably in the first instance grapple with, or at all events meet so as to prevent disaster. The danger, however, which is anticipated is not 'the blowing up of military or constabulary barracks.' For obvious reasons I refrain from stating what it is. The ordinary Irishman, and this applies to those whose avocations in blasting operations and the like make them more or less acquainted with the use of dynamite—the ordinary Irishman has not studied, and therefore isnot skilled in the use of dynamite. But this, I am credibly informed, is not the case with the Irishman who has been in America, and there are always a large number of these scattered up and down the country, many of them regular employes in one capacity or another. There can be no doubt that the miscreants would ultimately be caught, and that before much real damage could be inflicted; but the attempts would probably be taken as rendering unnecessary any account of the money avowedly contributed for such purposes. As it is, there cannot be a doubt that the heads of these secret societies are at present in strong apprehension, Everyone distrusts his colleagues; and the result is seen in the numerious arrests that are being made all over the country—made not without information as trustworthy as information from such sources can be. The murders and more serious outrages of the two past years could not have gone unpunished—could not, in fact, have been committed without the aid of such societies. The perpetrators, it is well known, are never the parties who fancied themselves aggrieved; it may also be taken for granted that they were not the volunteer work of individuals. There is only one other conclusion to be drawn, and that, as I have said, is the conclusion that they are done by the orders of a secret organization. After all I have said about the existence of these secret societies, it remains to be added that their existence and their active operation in the fashion alluded to, by no means necessarily points to any apprehensions of a 'rising'. No doubt these bodies feel themselves very severely pressed at present by the unwearying vigilance and praiseworthy activity of the Goverament officials, and especially by the efficient working of the new system of dividing into districts under the command of specially appointed magistrates. Mr Clifford Lloyd, dealing with Kilmallock, which had been a very unruly part of the country, soon made it almost a paradise of quiet. He is not likely to fail in his more extensive task of restoring peace and order in the counties of Limerick and Clare; but it is not to be expected that the dregs of the Land League organization—the secret societies which worked under cover of it, although not, there is reason to believe, with the sanction of the Land League leaders—will do otherwise than die hard. They get money, wherever it comes from; the belief is that it does not come from Dublin, and that, as I have already said, Dublin has but a small share in the matter. It is probably not far from the truth to say that the money comes from America; and that it is dispensed by agents of one or other of the American agencies for collecting money with the avowed purpose of keeping Ireland in hot water; for they are keeping Ireland in hot water, and doing their utmost to prevent her progress in industry and commerce. The British Government may have a difficult task to perform; but it has not any greater grievance, or as much ground of complaint against these American intruders, than is felt by all the well-disposed and respectable classes in Ireland.

THE JUDICIAL CRISIS.

(Continued.)

ESCRIBANOS.

To the Editor of the *Standard*.

February 18, 1882.

Dear Sir,

Referring your readers to the first part of this letter, published in your issue of February 16th, we beg, by your leave, to proceed with

THE NOTARY'S FEES.

All those notaries whom we mentioned in our last letter make certain charges and recover fees, which are regulated by the actual scale of charges in force; still it would be perhaps advisable for clients to arrange before they allow them to enter upon their duties, inasmuch as there is just the chance of some notary or other charging in excess of the fixed scale, a fact which might lead to disagreeable discussions that are much better avoided, since they can so easily be so, by simply agreeing beforehand as to the amount of fees to be paid on such occasions.

NUMBER OF REGISTRIES.

We must also call attention to the fact of the number of public notarial registries being limited, and that such cannot be increased except by order and authorisation of the Executive power.

ESCRIBANOS—SECRETARIOS.

Besides the notaries already enumerated there are the 'secretarios' or Judges' assistants, who must be notaries in the Courts of 1st Instance and lawyers in the Courts of Appeal and Supreme Court.

Now, owing to the very peculiar organisation and working of the Courts of Justice in the Argentine Republic, where all pleadings and proceedings are almost always written, and not oral, as in most European countries, these 'secretarios' play a very great and highly important part in our judiciary mechanism. As we have already stated, they perform the duty of actuary and registrar in the courts. They it is upon whom it devolves to present and lay before the Judges and Courts all the petitions, pleadings and papers that are filed and entered; they it is who have charge of the formation of those ponderous brief-bundles and are responsible for the safe keeping of every sheet thereof; they it is who besides discharging a multitude of other most delicate offices, draw up and prepare the Judges' decisions, orders and writs; they it is who must certify and attest all such orders, decrees and decisions, none of which would be valid and good without being countersigned by them. In fine they constitute in this country, as the reader will readily perceive, the main 'pivot on which the whole of our law court machinery turns for better and for worse. Their office is considered of so delicate a nature that they are prohibited by the laws (on the parties petitioning to that effect) from acting as such Judges' Assistants should any relations of theirs within the fourth degree happen to take any part in the law proceedings, either as a lawyer or as an attorney.

Before the Judges of 1st Instance all Judges' Assistants must have taken out a diploma of Notary public, and before the Court of Appeal they must be Barristers-at-law. But neither, the former nor the latter can interfere in any matters which do not pertain to their respective courts, and, as a matter of course, all contracts and deeds (whether commercial or civil) must be executed before Public Registry Notaries, and never before 'Secretarios' who are exclusively Judges' Assistants and who, as their name implies, only assist the Judge in the performance and discharge of his duties, but never draw up, certify and attest contracts between parties, nor execute wills, powers etc; with the exception of the 'Secretarios' of the criminal, correctional, federal or sectional courts, who can draw up powers and execute surety bonds, recognizances etc, and such documents as belong to their special jurisdiction.

CHARGES OF SECRETARIOS

In the province of Buenos Aires and in the Courts of 1st Instance the charges of the Judges' Assistents are paid according to the scale of charges, but in the Courts of Appeal and the Supreme Court no charges are made for their assistance. Besides neither the civil nor the commercial courts of the nation recover any charges, their 'secretarios' being paid a fixed salary determined by the Nat. Budget.

NATIONAL AND PROVINCIAL NOTARIES

In the national public notarial registries of the Capital (for to day they have all been nationalized and there are now no provincial public notarial registries in this city) but only until the province of B. Aires gets Public Registy Notaries of its own—the national notaries can draw up contracts for all such parties whose abode is outside the Capital or which refer to property situated beyond the range of the municipal precincts.

As regards country provincial notaries, we may add that these limit their jurisdiction and sphere of action to the partido in which their registry is located, though they are not on that account prevented from drawing up powers and contracts on matters outside the seat of their jurisdiction, nor precluded from executing and attesting wills etc.

REGISTRY NOTARIES CANNOT BE 'SECRETARIOS.'

Public Registry Notaries cannot be at the same time 'Secretarios' or Judges' Assistants, these two appointments and offices being considered incompatible in the eye of the law. However, this rule is not without some exceptions as has been said before, and we must now add that there are some registries which existed before 1871, and whose notaries continue in charge of such while they at the same time do the drawing up, registering and recording of the briefs and cases which they had at that period in their ofices. But these duties have been distinctly defined since the statute enacting the creation of 'Secretarios' or Judges' Assistants. Moreover, Public Registry Notaries cannot act as attorneys in any suit or proceedings.

In one of your next issues, we shall do our best to lay 'testamentaria' matters the winding up of wills and successions in a simple, concise and comprehensive form before your readers. This is another point of cardinal interest for our countrymen residing in the Argentine Republic where it may be stated by the way that even very few legal practitioners are well posted up with the laws and rules which govern the same. It is true, that merchants, manufacturers, farmers and simple citizens need not be converted into law-bookworms, but they ought at least to know the principal interesting points of the law of the land in which they live, so as to be able take care of their purses. And, it is only this slight insight of general legal knowledge which we would attempt to diffuse among our fellow-countrymen, in order that they may not unfairly be taken advantage of in a country which counts its 'doctores' by hundreds and its 'Procuradores' by the thousand!

Yours sincerely and obliged

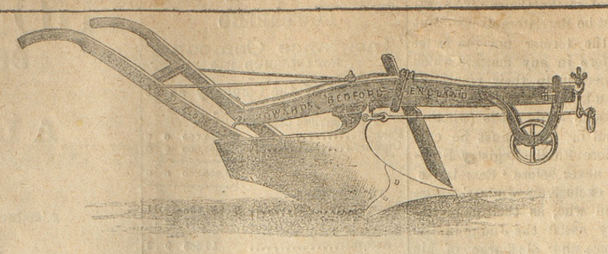
HOWARD'S CELEBRATED PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Capitania General de Puertos.

Reglamento para el fondeadero de los vapores de cabotaje, aprobado por la Superioridad.

Art. 1º Queda establecido un fondeadero especial y exclusivo para las vapores de cabotage que conducen pasajeros.

Art. 2º Este fondeadero, determinado por boyas de fierro conicas y pintadas de colorado, se halla situado en el espacio comprendido entre los muelles de Pasageros y Catalinas, limitado por las calles de Corrientes y Temple, en su prolongacion hacia el centro del rio, y por la playa.

Art. 3º Todos los vapores que comprende este reglamento, estan obligados a fondear dentro del radio determinado, debiendo mantener siempre en sus anclas las boyas de ordonanza.

Art. 4º Ninguna otra embarcacion puede penetrar dentro de este fondeadero, bajo ningun pretesto; salvo los casos en que lo permita la Capitania o lo requiera la prestacion de auxilios.

Art. 5º Las embarcaciones menores que vayan en busca de pasajeros y equipajes deben situarse a un costado del fondeadero, hasta que la autoridad policia que esta abordo les indique pueden atracar al vapor; pero en ningun caso pueden hacerlo mas de cuatro embarcaciones a la vez, colocandose en linea al costado del desembarque; una vez que salgan estas, otra entra, y asi sucesivamente.

Art. 6º Nadie puede cambiar una boja del buque donde esta fondeada, ni hacer en ella operacion alguna.

Art. 7º Se recomienda muy especialmente que, al fondear sus anclas, los vapores lo hagan lo mas retirado posible de las boyas, para que asi no se enreden las cadenas de aquellos con las de estas.

Art. 8º—Ningun vapor puede fondear con muerto algunos in previo permiso de la Capitania.

Art. 9º—Toda vez, que se rompa una boya o su cadena por choque de alguna embarcacion, esta responderá del dano.

Art. 10—La infraccion a cualquiera de estas disposiciones, sera penada en cuatro pesos fuertes, sin perjuicio de las demas accciones a que hubiere lugar.

Art. 11—La Ayudantia queda especialmente encargada del cumplimiento de este reglamento.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, E deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f 50 que es el minimum de las que emite el Establecimiento.
